

The Water Cycle, Oh Yeah! Chant

by Mrs. Massey☺

Water travels in a cycle, oh yeah.
Water travels in a cycle, oh yeah.
It goes up as **EVAPORATION**.
It forms clouds and **CONDENSATION**.
It falls down as **PRECIPITATION**, oh yeah.
So when you are lookin' up into the sky.
And a rain drop is fallin' in your eye.
Just remember where it's been.
Maybe last week when you took a swim.
It's the water cycle my-oh-my!
Water travels in a cycle, oh yeah.
Water travels in a cycle, oh yeah.
It goes up as **EVAPORATION**.
It forms clouds and **CONDENSATION**.
It falls down as **PRECIPITATION**, oh yeah.
