

VASCULAR AND NON-VASCULAR PLANTS?

Let's take a closer look.

What makes them different on the
outside and inside?

Take a close look....

**SEE IF YOU CAN OBSERVE
THE DIFFERENCES BETWEEN
THE TWO PLANTS...**

PLANT DIFFERENCES?

Vascular

- Has roots, stems, leaves(well-developed system)
- Tube-like structures to support and transport water
- Ex: trees, bushes, grass

Non Vascular

- No roots, stems, leaves
- Live in damp conditions to get nutrients directly
- Smaller in size
- Ex: moss, liverworts
